Electric  
Victoria  
Phaeton, \$1350

THE IDEAL CARRIAGE FOR LADIES.

THE COLUMBIA Electric Victoria-Phaeton was designed principally to supply a car for shopping and calling that any lady might drive. Easily operated, beautifully finished, compactly built, noiseless, with varying speeds, it is an ideal car for town use. Demonstrations granted.

("The Honest Car")

IN NEW YORK

During the last 10 months we have sold

139 Royal Tourist Cars,

Aggregating \$487,000.00.

And still you cannot find one owner of one of those "Honest" Royal Tourist Cars who regrets one dollar of his investment. Neither can you find one who has sold his Royal car to purchase a car of another make.

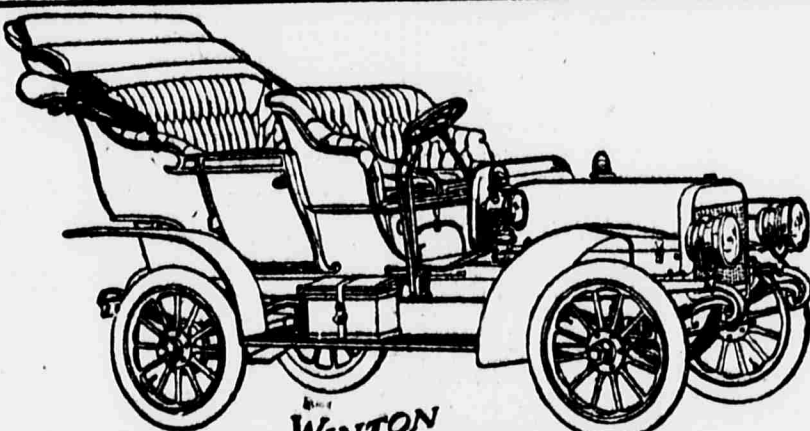

Why are you not also so happily situated? You can be, and we want to tell you how.

Just got in one LIMOUSINE and two TOURING CARS way ahead of time; so if you want one at once

## WINTON MODEL-K

AVOID FALSE VALUES.

The value of any commodity is the LOWEST price at which that commodity can be purchased in the open market.  
The actual value of high-grade automobile touring cars is \$2500, because that is the open market price of the 30 H. P. WINTON MODEL-K.  
The WINTON MODEL-K possesses (as you will find for yourself upon even the most critical scrutiny) every element, every detail that engineering skill, careful manufacture and the experience of motorists determine to be necessary or desirable. Consequently, whenever you pay more than \$2500 for an automobile touring car you are paying a FALSE VALUE. You are paying an expensive tribute to the manufacturer and you are placing your own approval upon his "easy mark" estimate of the buying public.

## THE CAR DE LUXE

Winner in 1904 and 1905 of the Gordon Bennett Cup  
The Paris Salon Gold Medal  
The French Elimination Trial's  
Winner of the Grand Prix, St. Louis Exposition

A car that insures the fullest enjoyment of all the pleasures there is in motoring. Its luxuriously easy and silent motion under the lightest speed are qualities fully demonstrated. Its possession of medals and trophies competed for and envied by the Motor-car builders of all countries is proof of absolute perfection in all its hidden mechanism, and guarantees freedom from the vexations attendant upon touring with cars of less stability. The two larger sizes this year are chain driven and heavier.
